

A Gateway to accessing your digital resources

RemoteXs is a **Single-Window Platform** to access all eResources

RemoteXs harnesses simplicity, strength and security of [Drupal CMS](#) with enhanced automated monitoring of the users. Drupal's power of bringing resources on a single platform saves considerable amount of time and effort of the users

RemoteXs has enabled all leading institutions (academic or research) in [optimising usage](#) of the precious eResources and nurturing research interests of faculty and their students

RemoteXs has an ability to provide secured access to scattered eResources of the institution, bringing them [under one umbrella](#), along with subscribed eJournals, eBooks and all other eContent, that too anytime ...from anywhere

Our cost-effective cloud-based service model has enabled progressive libraries in creating their own Digital Library Portal with facilities to reach their [target audiences](#) in efficient manner

RemoteXs has also freed institutions from investing and maintaining huge hardware infrastructure of eMail servers, central servers, bandwidth costs, IP address registrations etc. This has helped them to focus on core-academic-activities and use [saved funds](#) aptly

RemoteXs has empowered institutions in systematically [imbibing research values](#) among faculty and students and take right steps in creating a knowledge-base of their own

Our Services Hosting services | Data Backup services | Mail server hosting services | Resource portal theme design

## Nurture the Research Potential

-  **Management dashboard**  
Provides a snapshot of activities on a single screen
-  **Facilitates seamless information provision**  
With a single login ID; authorised Researchers, Scientists, Faculty, Students and Staff can access all their digital resources anytime ...from anywhere
-  **Responsive multimedia capability to provide SDI services**  
Libraries and Publishers can classify content to increase resource usage by displaying videos, presentations, images, articles, documents relevant for special user categories
-  **Interactive content management**  
Help related to using contents of eResources can be made available through training videos, articles, events, webinars etc

-  **Integrated eMail services**  
Allows administrator to easily send system generated email messages (like welcome email, password reset, custom messages, usage statistics etc) to all or select user categories and publishers
-  **Flexible**  
User category-based resource grouping and access to resources
-  **Secure and Dependable**  
Data download limit for end-users, robotic downloads prevention, auto-check for system abuse
-  **Comprehensive reporting module for decision making**  
MIS Reports generated by RemoteXs can very well help in optimising budget allocations towards eResources and eSubscriptions

## Client Testimonials

"With fast expanding e-resources such as e-journals and ebooks, we are subscribing to an easy-to-use RemoteXs to manage the resources in one platform and allow remote access to encourage much higher usage. RemoteXs has also helped our university users to access from different devices within and outside of campus."

**Tomoyoshi YOSHINO**  
**Managing Librarian**

**Kanda University of International Studies, Chiba/Japan**

"RemoteXs is extremely helpful for students who stay outside of campus to assess our e-resources. We have seen a strong take-up in number of registered users via the RemoteXs, which helps to ramp up resource usage."

**Jason Andrew Polko**  
**Chief Librarian**

**Infrastructure University Kuala Lumpur, Malaysia**
